Hi Clint,

Patrick forwarded to me your email below. Thank you for the contact. I will give Thomas a call to see how we might get involved with the new bond work. A real shame 2 did not pass. Truly believe it to be a fantastic project for the district and would really put EISD on the map for sustainable and smart building. With your continued support, I'm sure it will eventually be realized.

Thank you again for the contact and if there are any clients or projects that you may have that could use our services, it would be a pleasure to work with you. As you may know, we do all types of work from large scale commercial developments, interiors, and even custom residential for select clients. Take care, and thank you for your kind words on the design of the project. Much appreciated.

Absolutely. Check with Thomas Wolfe, the director of facilities. He would be the best contact for now. At this time I'm not sure what the Superintendent's plans are for management of the bond projects. I'll make sure your names get to the right place.

Re: Eanes Bond Election

Thanks again for your time and effort on the multi-purpose facility cost estimates and getting Clay involved. I haven't given up on this project.

Well congratulations on getting at least one part of the bond passed. In an effort to show Clay our appreciation for his architectural services I'd like to introduce him to the proper people at Eanes selecting Architects for the renovation projects. Do you have any contacts I can share with Clay?
